Sir:

RESPONSE TO NOTICE OF NON-COMPLIANT AMENDMENT

Responsive to the Notice of Non-Compliant Amendment mailed April 4, 2007, kindly replace the Amendments to the Specification submitted on January 24, 2007 with the attached Replacement Amendments to the Specification beginning on page 3 of this Response.

In the Notice, the Examiner requested that the page number of the paragraphs amended be identified. In addition, the Examiner correctly notes that amended paragraph(s) do not include markings. All amended paragraphs included markings; however, it is possible that the amendment to paragraph [0025] was not visible as it added a "period". The Replacement Amendments to the Specification address these issues. Entry of the Replacement Amendments to the Specification is respectfully requested.

In addition, the Examiner believed that Applicant intended to cross out a reference number in the drawings. To the contrary, and as stated in the prior response, the error was in the specification rather than the drawings, and the specification has been amended accordingly. Thus, no corrections to the drawings are needed.
